

AP-PM 9400 - ENVIRONMENTAL POLICY

Aeropower Pty Ltd understand that delivering our services may have an impact on the environment; therefore, we are continually looking at ways we can reduce this impact by reducing noise, emissions and waste and improving the way we carry out our business.

The Aeropower Team acknowledges that reducing our impact on the environment. and improving how we provide our services provides a safer cleaner environment for the community in which we work and live.

To ensure we meet this commitment we will:

- Manage the environmental impact of our organisation through sustainable operations, sustainable development and preventing pollution. Implement a management system that not only meets all statutory and industry environmental requirements but focuses on continuous improvement.
- Act in a manner that will minimize environmental emergencies and incidents, whilst at the same time having in place a plan of action to respond quickly and effectively.
- Ensure the Aeropower Team demonstrate commitment to, and are accountable for, sustainable workplace environmental management practices.
- Identify and comply with all relevant environmental legal and other obligations. Monitor and report compliance with statutory, industry and customer environmental requirements.
- Consult and involve our workers in the development and implementation of environmental improvement programs.
- Integrate environment requirements into all relevant organisational processes and decisions, continuing to recognise our obligations to our workers, customers, and others.
- Allocate adequate resources to fulfil the aims of this policy.
